**NEW YORK, August 27, 2008** – Inc. today ranked Imaging On Call No. 2913 on its annual ranking of the 5000 fastest-growing private companies in the country. Imaging On Call is a teleradiology company based in Poughkeepsie, NY. IOC provides remote radiology reading services seven days a week to seventy-five hospitals in nine states. IOC employs thirty-four Board certified radiologists across all areas of subspecialty expertise, with experience on all imaging modalities.

"It is an honor to be recognized by Inc. magazine and I am pleased to report such rapid growth from IOC," said Brian Phelan, CEO of Imaging On Call, "but most importantly, quality is our top priority. From our radiologists to our clinical interpretations to our interactions with our customers, providing a quality service and helping to improve patient care are first and foremost." Phelan also says "everyone at IOC is excited about our continued growth, but as we partner with more radiology groups, our primary focus will continue to be on providing the highest quality patient care."
